Reopening Your Business

Businesses have reached a critical point during the pandemic and knowing whether your employees have COVID-19 antibodies could ease your transition to reopening. A rapid test that determines the proportion of your workforce previously exposed to the novel Coronavirus should provide valuable information about individuals that may already be immune and potentially protected from the disease.

VaxPro can quickly put in place an onsite and cost-effective **COVID-19 antibody rapid testing program** for your company.

Top Reasons To Choose VaxPro For A Flu Shot Clinic

- Protocols are in place to ensure safe clinics during the Coronavirus pandemic.
- We are a preferred provider for many health insurance companies and in most cases can bill 100% of the flu vaccination cost to insurance for covered employees.
- Clinic dates and times are scheduled to meet the needs of your company.
- A free online registration system to help organize and increase clinic participation.
- Nurses that are specially trained and follow CDC and OSHA guidelines.
- Flu shot records uploaded to the Wisconsin Immunization Registry (WIR).

- We offer an improved flu shot for adults 60+ called the High Dose Quadrivalent flu shot. It adds an additional strain of protection in your flu shot.

Call VaxPro headquarters at 262-241-4522 or email jay@vaxpro.com to discuss an onsite flu shot clinic for your workforce!

Influenza And COVID-19

As we look ahead toward fall and winter, the thought of dealing with a flu season during the coronavirus pandemic is daunting. At VaxPro, we've stocked up on influenza vaccine to help protect your workforce. To learn about vaccine manufacturing [Click Here!](#)

Differences Between Seasonal Flu and Pandemic Flu

It's important to know the differences between the seasonal flu and pandemic flu. For instance, the seasonal flu happens annually and usually peaks between December and February, while the pandemic flu rarely happens (three times in the 20th century).

Learn more about the difference below and how it impacts us!

A look at [COVID-19 cases](#) in all of the states during the last few months. As you can see, in some states the case numbers are declining while others are starting to increase.

Please keep this in mind as businesses reopen and the weather gets nicer.

Juvenile Arthritis Awareness Month July 2020

This month, we're highlighting juvenile arthritis as our awareness month. Juvenile arthritis is the term used to describe arthritis, or inflammation of the joints, in children. The most common symptoms of juvenile arthritis are joint swelling, pain, and stiffness that don't go away. Juvenile arthritis affects nearly 300,000 kids and teens in the United States.

Our Mission

VaxPro is a wellness company that specializes in annual influenza (flu) shot clinics for businesses, health fairs, school districts and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals. Besides flu shots, VaxPro offers TB testing, a Biometric Screening service (assesses your employee's potential risk to develop cardiovascular disease and diabetes) and COVID-19 antibody rapid testing.
