Spring Allergy Season 2018

With the allergy season upon us, contributors like mold, ragweed, pollen, and dust can cause symptoms like runny nose, itchy eyes, and stuffiness during the spring and summer months. Pharmacist Jay recommends these low or non-sedating antihistamines to help alleviate your symptoms and allow you to enjoy the outdoors. The over the counter medications in order of least amount of sedation to the most:

- Claritin
- Allegra
- Zyrtec

Did you know VaxPro provides Hepatitis B Immunizations?

Make sure your employees get this important vaccine! For more information, contact info@vaxpro.com or call 262-241-4522.

How serious is Hepatitis B?

- Two Types of Hepatitis B: Acute and Chronic
- Hepatitis B is a serious disease that effects the liver.
- Spreads through blood and other bodily fluids infected with the virus that enter the body of someone who's not infected.
- Infants should get their first dose of hepatitis B vaccine at birth and will usually complete the series at 6 months of age.

VaxPro, LLC President Jay Plavnick headed to a Hepatitis B Clinic!

- Can cause mild illness lasting a few weeks, or it can lead to a serious, lifelong illness.
- Up to 1.4 million people in the US have chronic Hepatitis B infection.
- Each year about 2,000 people in the United States die from hepatitis B-related liver disease.
