

## Your April Newsletter

As a health and wellness company, VaxPro's number one priority is the safety of our community that includes our customers, your employees and our staff. Rest assured that VaxPro is following the COVID-19 safety guidelines from trusted sources, including the World Health Organization (WHO), the Centers for Disease Control and Prevention (CDC), the Wisconsin Department of Health Services and the White House Coronavirus Task Force.

VaxPro already has in place all of the supplies needed for your flu shot clinic(s) in the Fall. We have placed our order with the vaccine manufacturers and have been reassured that influenza vaccine is being manufactured and will be supplied to us on schedule. Our nursing staff will be ready and excited to run your flu shot clinics.

Typically, VaxPro flu shot clinics run from September through November. On a daily basis, we are monitoring the rate of Coronavirus (SARS-CoV-2) infection and recovery both globally, nationally and statewide. In the event that we foresee any delays in your clinic date(s), we will contact you immediately to reschedule.

-Jay Plavnick and Steve Nye, VaxPro Owners

### Safer At Home

On March 24, 2020 Wisconsin Governor Tony Evers issued a "Safer At Home" order stating that Wisconsinites must stay in their homes to fend off the coronavirus outbreak. People can leave their homes only for essential activities defined in the order. This order is in effect from 8am on March 25th to 8am April 24th.

## Tips To Remember

- Stay at home
- Limit your physical interactions to the same people during this time
- Less than five people total will help us stop the virus from spreading
- Keep at least 6 feet apart from others and avoid direct physical contact
- Limit the amount of time you spend making essential trips to the grocery store or to pick up medication
- Make essential trips no more than once a week
- Wash your hands often with soap and water

## Avoiding The Coronavirus

To prevent Coronavirus (SARS-Cov-2) infection and spreading of COVID-19, practice good personal hygiene and social distancing guidelines. The best way to "flatten the curve" is to avoid being exposed to the virus.

Click the link below to learn more about what you can do to help contain this pandemic.

## Social Distancing Extended

As per the White House Coronavirus Task Force, social distancing guidelines in the U.S. have been extended to April 30th. Originally put in place for 15 days, the importance of social distancing and COVID-19 mitigation needs to be taken seriously by all Americans now more than ever.

## Recommended Composition Of Flu Vaccines For 2020-2021

At VaxPro flu shot clinics, our nurses administer the quadrivalent influenza (flu) vaccine to patients. The World Health Organization (WHO) recommends that the following strains make up the quadrivalent flu vaccines for the 2020-2021 flu shot season.

- A/Guangdong-Maonan/SWL1536/2019 (H1N1)pdm09-like virus
- A/Hong Kong/2671/2019 (H3N2)-like

## Why Choose VaxPro For Your Fall 2020 Flu Shot Clinic?

VaxPro specializes in onsite flu shot clinics at companies located throughout Wisconsin. Top reasons to choose VaxPro include the following (at no extra charge):

- We are a preferred provider for many health insurance companies and will bill 100% of the vaccination cost directly to the insurance company for your covered employees.
- We will schedule clinic dates and times to meet the needs of your company.
- VaxPro and are specially trained for

- B/Washington/02/2019 (B/Victoria lineage)-like virus
- B/Phuket/3073/2013 (B/Yamagata lineage)-like virus

Note that this recommendation is currently for egg-based vaccines in the northern hemisphere. For cell or recombinant-based vaccines, an A/Hawaii/70/2019 (H1N1)pdm09-like virus will be substituted for the A/Guangdong-Maonan strain.

- We offer an online registration system to help organize and increase participation at your clinic.
- We upload all flu shot records to the Wisconsin Immunization Registry (WIR).

Sign up now for your company's flu shot clinic this Fall!

## Our Mission

VaxPro is a wellness company that specializes in annual influenza (flu) shot clinics for businesses, health fairs, school districts and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals. Besides flu shots, VaxPro offers TB testing and a Biometric Screening service that assesses your employee's potential risk to develop cardiovascular disease and diabetes
