

Your June Newsletter

As a health and wellness company, VaxPro's number one priority is the safety of our community including our customers, your employees and our staff. At our onsite clinics, we follow COVID-19 safety guidelines recommended by the WHO, CDC, OSHA and the Wisconsin Department of Health Services.

VaxPro already has in place the clinic supplies needed for your flu shots this Fall. We have been reassured by the manufacturers that flu vaccine will be delivered on schedule. Our experienced nursing staff is ready to run your clinics. Should there be any delays due to the pandemic, we will notify you immediately..

Now Available: Rapid COVID-19 Antibody Testing

VaxPro can put in place a rapid **COVID-19 antibody testing program** for your workforce which according to the CDC will "...help determine whether the individual being tested was ever infected—even if that person never showed symptoms." At this time, it is not known whether a person with COVID-19 antibodies is immune to further infection.

However, the antibody tests "can help determine the proportion of a population previously infected with SARS-CoV-2 and provide important information about populations that may be immune and potentially protected."

Top Reasons To Choose VaxPro For A Flu Shot Clinic

- Protocols are in place to ensure safe clinics during the Coronavirus pandemic.
- We are a preferred provider for many health insurance companies and in most cases can bill 100% of the flu vaccination cost to insurance for covered employees.
- Clinic dates and times are scheduled to meet the needs of your company.

- A free online registration system to help organize and increase clinic participation.
- Nurses that are specially trained and follow CDC and OSHA guidelines.
- Flu shot records uploaded to the Wisconsin Immunization Registry (WIR).
- We offer an improved flu shot for adults 60+ called the High Dose Quadrivalent flu shot. It adds an additional strain of protection in your flu shot.

Call VaxPro headquarters at 262-241-4522 or email jay@vaxpro.com to discuss an onsite flu shot clinic for your workforce!

Getting A Flu Shot During the Coronavirus Pandemic

A good discussion on why it's important to have your annual influenza vaccination in the Fall, especially as COVID-19 is expected to rebound in the U.S. at the end of summer.

The flu shot does not protect people from getting COVID-19. However, the question comes up: will it be beneficial to have a flu shot during the COVID-19 pandemic?

Facial Recognition and Thermal Cameras

As COVID-19 testing becomes more prevalent, we realize people returning to their every-day lives might encounter surveillance and privacy changes.

For example, some companies have beefed up their security with thermal cameras, which readily detect a rise in body temperature caused by a fever. Facial recognition can also be used to detect whether people are wearing face masks.

Is your information safe when companies use thermal cameras and facial recognition to detect COVID-19? Read

the article below and find out.

We recommend Badgerland IT Services (BITS) as a great IT partner for small businesses. DJ and his team have helped build VaxPro's IT infrastructure and remote capabilities during the COVID-19 pandemic. BITS remains open for business and can assist customers in all IT needs. Here's how BITS can help your business during the pandemic:

Google My Business

Google My Business has become an essential tool to enable customers to easily find your business on Google and Google Maps and the correct updated business information.

Work From Home

BITS can assist with computer issues that you and your employees might encounter working remotely during the pandemic. We accomplish this with remote sessions to workstations and/or servers as though we are right there with you.

Website Updates

Keeping your customer base updated about the status of your business is essential. Daily or weekly updates can be made to your website as necessary. We can also increase traffic to your website with our SEO strategies and increase your visibility with our marketing services.

Our Mission

VaxPro is a wellness company that specializes in annual influenza (flu) shot clinics for businesses, health fairs, school districts and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals. Besides flu shots, VaxPro offers TB testing, a Biometric Screening service that assesses your employee's potential risk to develop cardiovascular disease and diabetes and COVID-19 rapid antibody testing.
