Wisconsin Leads Nation In Daily COVID-19 Vaccinations

Wisconsin leads the nation in the average number of [COVID-19](#) vaccine shots administered daily. In the past seven days, Wisconsin is now administering roughly 6,170 shots per million residents per day. Learn more about how Wisconsin has revamped the vaccine rollout to its residents below!

New Variants Of COVID-19

New Variants Of COVID-19

What do coronavirus [variants](#) mean for vaccines and reinfection? What we know so far is the COVID-19 virus has been mutating since being discovered. Multiple variants of the virus that causes COVID-19 are circulating globally.

So far, studies suggest that antibodies generated through vaccination with currently authorized vaccines recognize these variants. Getting vaccinated, physical distancing, wearing masks, hand hygiene, and isolation and quarantine is essential to limit the virus's spread that causes COVID-19.

Is It Time For Two Masks?

Slowing the coronavirus's spread is more crucial now than ever before, as several new strains have popped up that are easier to transmit. To keep people from getting sick, Dr. Anthony Fauci and other health officials recommend doubling on [masks](#).

Vaccines In Phase 3 Clinical Trials

The next large-scale (Phase 3) clinical trials are in progress or being planned for three COVID-19 vaccines in the United States:

- AstraZeneca's COVID-19 vaccine
- Janssen's COVID-19 vaccine
- Novavax's COVID-19 vaccine

Learn more about U.S. COVID-19 vaccine clinical trials, including vaccines in earlier stages of development [here!](#)

COVID-19: Vaccine Phases and Eligibility

The COVID-19 vaccine is being distributed throughout Wisconsin in a phased approach. Remember that vaccine supply is limited, and current vaccinations target specific groups of people with a higher risk for COVID-19 infection.

Who's Eligible

- Frontline health care personnel
- Residents and staff in skilled nursing and long-term care facilities
- Police and fire personnel, correctional staff
- Adults ages 65 and over

Who's Next

- Education and child care
- Individuals enrolled in Medicaid long-term care programs
- Some public-facing essential workers
- Non-frontline essential health care personnel
- Facility staff and residents in congregate living settings

American Heart Month

February is [American Heart Month](#)! We are concentrating on motivating Americans to adopt healthy lifestyles to prevent heart disease. Focusing on your heart health has never been more critical, and people with poor cardiovascular health are also at increased risk of severe illness from COVID-19.

Our Mission

VaxPro is a wellness company specializing in COVID-19 vaccinations and annual influenza (flu) shot clinics for businesses, health fairs, school districts, and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals.

Besides vaccinations, VaxPro offers TB testing and a Biometric Screening service that assesses your employee's potential risk to develop cardiovascular disease and diabetes.
