Influenza Update

Register Now For A Fall Flu Shot Clinic

- [Flu vaccination](#) can help prevent serious illness from influenza and it is especially important to be vaccinated for both flu and COVID-19 to remain healthy.
- Flu vaccination is shown to reduce flu-associated hospitalizations and it is an important preventive tool for people with chronic health conditions.
- Flu vaccine can be lifesaving in children and helps protect women during and after pregnancy.

- VaxPro is a preferred provider for many health insurance companies and in most cases can bill 100% of the flu vaccination cost to insurance for covered employees.
- Clinic dates and times are scheduled to meet the needs of your company.
- Our paperless system includes a free online registration system that will help organize and increase clinic participation.
- Patient records are uploaded to the Wisconsin Immunization Registry (WIR).

Call [VaxPro](#) headquarters at 262-241-4522 or email info@vaxpro.com to discuss an onsite flu shot clinic for your workforce!
