

## Your November Newsletter

### VaxPro Provides COVID-19 Testing And Drive-Through Clinics!

As COVID-19 cases are rising in Wisconsin, you might be worried about your employees contracting the virus. VaxPro can help by designing a plan for COVID-19 testing at your company. Want to schedule a clinic but you have limited space indoors? No problem! We can work with you to set up a drive-through clinic that will ensure the safest environment for your employees. Contact [steve@vaxpro.com](mailto:steve@vaxpro.com) today to learn about our drive-through program!

### COVID-19 In WI

As of November 4th, 2020

5,935 positive COVID-19 cases (new record).

Average positivity rate of 31.1% (new record).

1,747 hospitalizations, including 360 patients in intensive care units (new record).

2,156 total deaths.

As Wisconsin continues to break COVID-19 records, we ask our community to be mindful of their decisions to go out unless it's essential. Wear a mask, wash your hands, and stay socially distanced.

### Wisconsin Breaking COVID-19 Records

There were 5,935 positive coronavirus cases reported in Wisconsin on November 4th. Hospitalizations and deaths continue to rise this fall. Let these numbers sink in as we approach the holidays and the winter months, which means spending more time traveling and being indoors with other people.

Take a look at what being in [close contact](#) with someone with COVID-19, or someone who recently tested positive, means for you.

Let's work together to bring the numbers down in Wisconsin!

## Is It Safe To Eat At A Restaurant?

A recent CDC report found people with COVID-19 symptoms were twice as likely to have dined out beforehand. Adults who tested positive for COVID-19 were two times more likely to have eaten out at a [restaurant](#) in the two weeks before they became sick.

The CDC and other health authorities say that it is risky to be in any dining setting where people are in close contact with each other without wearing masks.

## COVID-19: The Statistics In Wisconsin

The percent of positive COVID-19 cases continues to rise in Wisconsin, even though fewer tests are being processed. Wisconsin remains at a high activity level for COVID-19 and as we get closer to winter, we need to do our part to eliminate the virus.

We must continue to help slow the spread of COVID-19 for ourselves, our loved ones, and our future. Do your part and wear a mask, stay 6 feet away from others, and wash your hands. Stay up to date with the [pandemic](#) cases in Wisconsin.

## National Pancreatic Cancer Awareness Month

We're observing November as [Pancreatic](#) Cancer Awareness Month! An estimated 57,600 Americans will be diagnosed with pancreatic cancer in the U.S., and more than 47,050 will die from the disease in 2020. It's also the 3rd leading cause of cancer-related death in the United States, surpassing breast cancer.

VaxPro is a wellness company that specializes in annual influenza (flu) shot clinics for businesses, health fairs, school districts, and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals. Besides flu shots, VaxPro offers TB testing, a Biometric Screening service (assesses your employee's potential risk to develop cardiovascular disease and diabetes) and COVID-19 testing.
