

Your September Newsletter!

Our Mission

VaxPro is a wellness company that specializes in annual influenza (flu) shot clinics for businesses, health fairs, school districts and senior group homes. We provide customized, onsite clinics that are staffed by licensed healthcare professionals. Besides flu shots, VaxPro offers a Biometric Screening service that assesses your employee's potential risk to develop cardiovascular disease and diabetes.

VaxPro Continues to Grow!

VaxPro continues to grow our team and is now providing wellness services throughout most of Wisconsin. We are excited as our 14th season of flu shots begins in September.

Our mobile staff of nurses will administer the quadrivalent, quadrivalent preservative-free and the high-dose flu vaccines at many corporate locations. We also provide our flu shot service to many universities and school systems throughout the state.

Many of our customers choose to bill the cost of the vaccination to insurance, use our online scheduling system and have vaccinations records uploaded to the Wisconsin Immunization Registry (WIR). It's not too late to register for a clinic.

Learn about VaxPro at www.vaxpro.com and then contact Jay to sign up for your flu shot clinic at jay@vaxpro.com or 262-241-4522 x1.

Wheeli World

We are excited to share that our partners at Badgerland IT Services are spinning out a new app for individuals with disabilities called "WheeliWorld." WheeliWorld is an interactive software application that will enable individuals with disabilities to determine whether they can fully access a venue that they would like to visit.

WheeliWorld's online directory will consist of venues with 360^o photos highlighting key features such as parking lots, entranceways and bathrooms that will determine their accessibility.

In addition, each venue profile will contain data about the venue, including a discussion forum for tips and reviews from visitors. To make the app widely available, the WheeliWorld team is forming a new company that will be based in Milwaukee.

WheeliWorld is seeking B-Corp certification because of the potentially great social impact the app will have in communities. If you are interested in becoming a field agent to photograph venues for the online directory, please contact steve@wheeliworld.com

Rylee Schultz
Manager, Talent & Logistics

Q: Where are you from?
A: Kenosha, WI

Q: Where do you go to school?
A: UW-Milwaukee; Majoring in Human Resource Management

Q: What interested you about working for VaxPro?
A: Originally I was looking for part time job while I completed my senior year at UWM, however, when I came in for my interview they had a different offer in mind once they started to hear about my background and my experiences.

Q: Why do you think it's important to get a flu shot?
A: I think it's essential to have vaccinations in general! But specifically a flu shot because it protects not only ourselves but those around us.

Our Core Values

VaxPro has been in business since 2006 and has always maintained a consistent relationship with all its employees. We are committed to creating an inclusive environment where diverse voices are active in all aspects of our organization. VaxPro has missions and goals that value equity and inclusions for people of all backgrounds. As our team on VaxPro continues to grow, we recognize the strengths of diversity by including different ethnic groups, genders, abilities and disabilities, age and other factors that really shape creative perspective and professional experience. We are always welcoming to new ideas as we always want our company to maintain the highest standards of ethics, transparency, and accountability.
